The Ocean Beach News

FOR THE ADVANCEMENT OF OCEAN BEACH, POINT LOMA, MISSION BAY AND MISSION BEACH

Twenty-second Year No. 24 | Phone Bayview 3157 | Friday, March 31, 1944 | Five Cents a Copy | Ocean Beach, California

COMMENT and RUMOR-

This week has shown considerable summerlike tendencies, bringing out women and youngsters in their shorts, as well as starting a good patronage at the beach. A summer tan can soon be acquired if this weather holds on, especially if one lounges on the lee side of the new rock breakwater, sheltered from the ocean breeze.

—•—

Warm weather though brings worry for the life guards, for we haven't enough guards to patrol our important beaches and rip tides are pretty dangerous at this season of the year. It's mighty dangerous to bathe where there are no lifeguards, so take warning and don't endanger your own life and possibly that too of some civilian who might come to your rescue.

—•—

George Bergman, USN, of Gannon dr. wants our Chamber of Commerce advised that this is a good place to grow strawberries. A few samples brought the News office Wednesday proves they are sweet, tender and luscious, and should be a part of every family garden.

—•—

We see the San Diego Card Room Owners association was smart enough to stop the ordinance prohibiting card rooms in the city by filing a referendum petition with supposedly enough signatures to call for an election by registered voters. The signatures are now being checked to see if the required number were legally registered.

—•—

Another check might be made to see how many were gained through misrepresentation. The party presenting the petition to this office (where no signatures were obtained) said the petitions were to be filed with the city council to see if people really wanted card rooms banned.

—•—

The votes received at the News office in a straw vote on "'Do We Want Card Rooms" is now in proportion of 15 to 1, with a definite NO in the majority. And several playing and gambling becomes a regular and uncontrolled habit which upsets households and takes away the husband's earnings that should be saved for rent, groceries or other most essential family needs.

—•—

Crowell D. Eddy, assessor, proposes to increase the assessment on dwellings in this county up to the pre-war level for construction and replacement, it is reported. This would mean an increase of 11 to 17 per cent, and would be out of all reason we believe, for slower times are coming and home owners need, if possible, to build up a little reserve to bide them over hard times when they come again.

—•—

Art Krause, 1755 Ebers st., police patrolman since 1929, has been appointed police sergeant and assigned to duty at the city jail. He was a member of our local lifeguards 1925 to 1929.

—•—

People are funny—Now that smoking is to be banned on street cars and buses, R. D. Van Luven of Ocean View blvd., writes our city council that he considers garlic eaters a worse nuisance than smokers and wants an ordinance prohibiting these people from patronizing the public utilities as well. Yes, we admit people are funny—and we might be queer ourselves on some subjects.

Mrs. Fred Edwards Opens Flower Shop

Mrs. Fred Edwards of 4879 Long Branch ave. is opening the Edwards Flower Shop in part of the Cabrillo Cleaners office, next door to the postoffice. Mrs. Edwards has been endeavoring to secure a storeroom for several months but unable to do so, however, sharing the storeroom with the popular Cabrillo Cleaners will be a most central location.

IN THE SERVICE--

News from our local boys in service as well as letters or excerpts of letters will be gladly published in this newspaper. Please bring them in for many service men receive the Ocean Beach News by mail weekly and are glad to hear of former friends.

Pfc. Harold T. Finch, U.S.M.C., was listed as wounded by the navy department. His wife resides at 2114 Abbott st.

— V —

Assigned to combat crew school at Ardmore army air field, Oklahome, Sgt. J. E. Conger, son of Mr. and Mrs. M. C. Williams, 4455 Montalvo st., is completing naval training as an aerial gunner of a heavy bombardment unit. Conger enlisted in March, 1943, and received preliminary training at Santa Ana, Visalia and Las Vegas, Nev. He previously was an aircraft engineer.

— V —

Tech. Sgt. Newbern B. Staley, whose wife, Mrs. Helen Staley, resides at 4921 Voltaire st., served with the marine corps as chief of a division radio unit during the invasion of the Kwajalein atoll, and was responsible for the speedy establishment and operation of communications.

He has been a marine since 1938 and was at Pearl Harbor Dec. 7, 1941.

— V —

Staff Sgt. Larry McMeeken, U. S. A., who has been visiting his sister, Mrs. Edward P. Cairns, of 209 E. Sixth st., National City, left this week for Camp Lee, Va., to take an advanced course in administration and supply. He is a member of the 125th army engineers, stationed at Camp Campbell, Ky.

Before entering service in July of 1942 Sgt. McMeeken was a printer in San Diego. He is a son of the late Mrs. M. D. O'Connell, of Chula Vista.

When Mr. and Mrs. O'Connell were publishers of the Ocean Beach News, McMeeken was known as Scotty. He attended Pt. Loma high school and helped a lot around the News print shop.

— V —

Sgt. Nicholas A. Mosley, 19, son of Mr. and Mrs. A. G. Mosley, of 1042 Grand ave., Pacific Beach, has been visiting his parents while on furlough from the army air forces gunnery school at Tampa, Fla. A graduate of Point Loma high school, Mosley entered the service April, 1943.

— V —

Aviation ordnance training at the Norman, Okla., naval air technical center has been completed by Everett G. Davis who was promoted to seaman 1st class. He is a San Diego high school graduate. His wife, Mrs. Mildred E. Davis, who resides at 4451 Niagara ave., has just returned from a three-month stay with her husband in Oklahoma. Everett's parents, Mr. and Mrs. Charles C. York, live at 4064 Landis st.

— V —

Catherine J. Santer, American Red Cross assistant program director, arrived in England recently. Her parents, Mr. and Mrs. A. W. Santer reside at 3020 C st. Miss Santer was organist and director of Trinity Episcopal church during Rev. John B. Osborn's vicarship. She also directed music in Chula Vista schools. She is a graduate of San Diego high and State college and attended the universities of California and Southern California.

— V —

Elmer Lee Snelson, MM 2/c, U. S. N., will leave by plane this week end for New London, Conn., where he will attend a submarine school. He has been visiting his parents, Mr. and Mrs. J. W. Snelson, 4419 Montalvo, the past month on leave from the war theatre in the South Pacific. Snelson was a member of the first troop to land on Tu Lagi and remained four months. He has been in the naval service four years.

— V —

Robert H. Oversmith, 18, son of Mr. and Mrs. Ralph E. Oversmith, has been enrolled in the navy V-12 program at Washburn Municipal university, Topeka, Kans. He attended as R.O.T.C. captain. Although enlisted as apprentice seaman, upon the successful completion of their college and basic training, Oversmith will be commissioned ensign in the navy.

William Southwell Commissioned Ensign

CORPUS CHRISTI, Texas, — March 8.—William Joseph Southwell, son of Mrs. Dora M. Southwell, of 4914 Santa Monica, Ocean Beach, graduated today from the Naval Air Training center, Corpus Christi, and was commissioned an ensign in the U. S. Naval Reserve.

He received his preliminary flight instruction at the Livermore, Calif., naval air base.

Southwell expected to be home for a short furlough early in this month but about the time his mother expected him he phoned from Atlanta, Ga., that he had been assigned there. Each naval aviator is an expert flyer, navigator, aerologist, gunner and radio operator. They may fly carrier-based or land-based planes in combat zones and elsewhere. Types of planes include fighters, dive bombers, scout and observation, multi-engined bombers, patrol planes and air transports.

Until May 1st Bill would like his old friends to write him, address: Ensign W. J. Southwell, USNR, N.A.S., Atlanta, Ga.

Instrument training will be taken up at Atlanta then he expects a call to Norfolk, Va., to join the Atlantic fleet.

— V —

Cpl. Frank McElwee, of the U. S. A., rainbow division, at Camp Gruber, Okla., arrived here Wednesday to spend eight days with his parents, Mr. and Mrs. F. B. McElwee, 4408 Brighton ave.

— V —

Jim Claspill, S K 1c, had a belated 3-minute telephone birthday visit with his parents, Mr. and Mrs. I. J. Claspill, 4660 Newport ave., Wednesday evening. Jim has been away from home 2½ years and is now with the naval air station of the Hawaiian islands. He was graduated by Pt. Loma high school and attended State college.

— V —

A winner of the Good Conduct Medal, Cecil C. Dunseth, army technician fourth grade, is serving at central signal corps school at Camp Crowder, Mo. He is the husband of Mrs. Jean Dunseth, of 5117 Cape May ave.

— V —

Donald Landry, 17, son of Mr. and Mrs. Gordon H. Landry, of 2146 Abbott st., enlisted for radio maintenance in the U.S. navy this week. He was a graduate of the June '43 class at Pt. Loma high school.

— V —

Bluejacket John Albert Nichols, 19, 4405 Narragansett ave., received recognition as eligible to qualify for the promotion to the petty officer rate of machinist's mate third class during recent graduation ceremonies at the Naval Training school (machinist) on the University of Kansas' campus, Lawrence, Kans.

Now a fireman first class, the Bluejacket was sent to the specialty school on the basis of his recruit training attitude tests.

He is now awaiting active duty orders to sea or to some shore station.

— V —

Pvt. A. B. Millan, 28, son of Mr. and Mrs. Sam B. Millan, 2761 Boston ave., formerly active in baseball here, is now in Ireland. He received his basic training at Ft. McClellan, Ala. He was employed here by a wholesale house, and is a former student of Point Loma high school. He has been overseas three months.

— V —

Having completed his pre-flight pilot training in the army air corps, Aviation Cadet Richard C. Miller, son of Mr. and Mrs. J. P. Miller, of 4645 Saratoga ave., is now at Coleman field, Tex., taking nine weeks of primary instruction.

Used Auto Dealer New In Ocean Beach

E. K. Shoemaker this week opened a used automobile agency in Ocean Beach, leasing a prominent corner at Newport and Cable sts., from Wm. Cords. This is Ocean Beach's first used car lot and a business that would have done well and has really been needed for several years. Mr. Shoemaker is a bonded dealer, meaning that his customers are protected from buying stolen automobiles that might have come into his hands through unscrupulous persons.

We look for this business to be a steadily growing one in spite of the low gasoline ration now permitted "A" book holders, and when new cars come on the market again Ocean Beach will have an established agency to take on the franchise for popular makes of new automobiles.

WAR BONDS will buy a stake in your country's future.

Neighborhood House Director Speaker Before Kiwanis Club

With Frank B. McElwee acting as program chairman Tuesday evening Miss Gertrude Peiffer, of Neighborhood House, San Diego, gave the Ocean Beach Kiwanis club a brief history of this important social settlement organization, which has been a haven for women and children of its surrounding area.

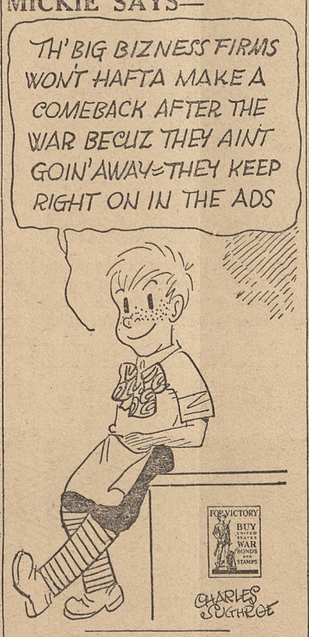
Those receiving sympathetic advice and material aid are said to be mostly Mexican, however there are some Negroes, and they seem to get along without serious friction. A nursery school has been maintained for some 10 years and for some time a kindergarten was operated though this has been discontinued since Lowell school was opened near there.

The speaker said: "Our section of town has many small houses with large families, so the boys are urged to get out and rustle for themselves almost as soon as they can walk. The girls of the family are housed closely, given few privileges, and kept if possible under parental eyes." Mothers are given pre-natal care and advice and assistance after their little ones are born. They also have free dental care.

Neighborhood House is financed by the Community Chest with some outside donations from private citizens.

In closing Miss Peiffer said: "We are brothers under the skin to those underprivileged people—and color is the unfinished business our democracy must solve."

MICKIE SAYS—



TH' BIG BIZNESS FIRMS WON'T HAFTA MAKE A COMEBACK AFTER THE WAR BECUZ THEY AINT GOIN'AWAY—THEY KEEP RIGHT ON IN THE ADS
FOR VICTORY BUY UNITED STATES WAR BONDS AND STAMPS
CHARLES SUTHERLAND

Denison Mattress Co. Suffers Fire Loss

Late Monday night a disastrous fire burned the stock and building of the Dennison Mattress Co., 2352 India st., causing a loss of at least $15,000, it is reported. Flames were soaring 50 feet in the air when the first fire trucks arrived and neighbors nearby were fearful lest their property too, go up in flames.

Point Loma High News

Easter Concert

An Easter concert will be presented Wednesday, April 5th at both student assembly hours, 9:10 and 9:50 by students in the choral music classes under the direction of Miss Jane Parrott. The stately processional to the stage will be again repeated from last year's concert with members of the choir and the girls' glee. Students in the stage design class under the direction of Miss Willa B. Brodie have designed and executed a stained glass window with a pipe organ effect for the staging of this beautiful program. Members of the junior glee club will be the antiphonal choir, a new feature of the performance. Friends and patrons of the school are most cordially invited to be present at this pre-Easter program.

Point Loma Firsts

Within the last few weeks Pt. Loma students have been winning first places in various competitive projects in the city. Mary Ann Lodge tied for first place in the essay contest on inflation. Helen Milligan won first in the delinquency essay contest sponsored by the American Association of University Women's club. Jane Jensen coming in second. Doris Glavan won first in the oratorial declamation contest of San Diego county high schools sponsored each year by State college. Tom Royal took third place in dramatic reading. Nancy Williams was selected as the winner in the district contest of the Lion's club annual speaking contest. Nancy will appear in the zone contest with the winners from other district contests in the city. It is a pleasure to congratulate these students who have attained these honors in the field of language arts—we just hope more students will avail themselves of these splendid opportunities another year.

Harbor Lights

"Harbor Lights," annual literary publication of the school is now offering subscription reservations. This is a fine publication compiling the choice literary efforts of the various students in the language arts department. Illustrations of these pieces are contributed by students in the art department.

El Portal

Subscriptions for "El Portal," the Pt. Loma yearbook went over the top beyond all expectations of the committee in charge. Congrats to all those who so successfully and smoothly handled this project.

SOLD BUSINESS INTERESTS

Mr. and Mrs. C. E. Calvin have sold their laundry business at 1874 Bacon st., and are moving to a small farm at Bostonia.

Mrs. Calvin's mother, Mrs. Estelle H. Oppenheimer resides at 4821 Narragansett ave. The Calvins have a host of friends in the community who wish them well.

PHONE TROUBLE

The News office phone—Bayview 3157—continues to give the busy signal when some of our customers are calling and the line to our office is not in use. The trunk line is overloaded, and if you cannot get us when you ring this office, please dial operator, and have her ring this number. In most cases you will be able to get your message through.

Ordinance Passed To Prohibit Smoking On Buses And Street Cars

After a great deal of discussion and opinions freely given both for and against smoking on public conveyances, the ordinance initiated by Councilman DeGraff Austin, with little support in the beginning, passed unanimously to take effect 30 days later.

Smoking on street cars and buses will be illegal in San Diego beginning April 28.

The city council Tuesday passed an ordinance repealing the present measure permitting smoking in the rear one-third seats of each conveyance and decreed that there shall be no smoking whatever in public carriers.

Maximum penalty for violation of the measure was fixed at $500 fine and 180 days in jail.

Before the council was a petition signed by 48 of 60 workers in an aircraft factory department urging that smoking be banned.

Joseph R. Lownes Out Of Marine Service

Joseph R. Lownes, proprietor Ocean Beach Federated and Ben Franklin stores since their inception a dozen years ago, has been discharged from active duty with the marine corps in which he enlisted some two years ago. Lownes, over 40, thought he was young enough to be a good marine, when war was declared, so enlisted. He engaged at once in boot training and says the grind nearly killed him but he got rid of a fat stomach and became hardened in good shape. Color blindness, soon discovered, made many activities of the corps impossible so he has served in various capacities besides home guard throughout his enlistment. Continuous shortage of help in the business ventures together with the fact that limited home guard duty in the marines was no longer necessary made it possible for Joe to secure his discharge and return again to business life in Ocean Beach.

Beginning in May the Lownes stores will no longer carry the trade names of Federated and Ben Franklin stores but will be known as the Lownes Department store and the Lownes Variety store. The franchise with the wholesale firm of Butler Bros., it is understood, had to be dropped owing to the inability of this firm being able to send the required amount of merchandise to warrant carrying such franchise. Other firms have found they must make buying connections wherever possible, so this step also became necessary with the Lownes stores.

POSTAL CARRIERS DUE FOR SWITCH

Mrs. Sybil Koether of Mission Beach is our new "postman" on route 163, Bacon st. north of Newport ave. in the business district, east on Santa Monica and part of Newport.

"Bozo" Murdoch mounted carrier of route 137 is being transferred to Mission Beach and Ralph Gilbert, old-timer on route 145, will take route 137.

Shortage of help makes changing of carriers a regular happening over all San Diego, so if your mail is somewhat delayed, be patient, cooperative and considerate to help these workers make their proper deliveries.

Preliminary Work Urged For Jetty

Early start by the state engineer on plans for erosion control at Ocean Beach will be urged by City Manager Walter W. Cooper, with the understanding that the city will pay the cost.

The manager was authorized to take the step Tuesday when the city council was reminded by Councilman Fred W. Simpson that unless $50,000 in state funds earmarked for the project is put to use before Sept. 13, the funds will be lost.

The city has allocated $50,000 to match the state appropriation with the tentative understanding that the work to be done is construction of a stone jetty at the south side of the entrance to Mission bay. Cooper suggested, however, that the state be asked to determine the best means of checking erosion along the Ocean Beach strand.

This last statement from a report in the daily press is a policy which can delay construction for several months or several years, owing to the sincerity and energy with which this study might be prosecuted.

Before a contract can be signed between the state and city for start of actual construction work, the city must be able to assure the state that all new lands created by erosion control will be public lands. So the assurance may be given, the city has ordered a title search of all submerged lands in the vicinity.

City Atty. Jean F. DuPaul told the council he believed the search would be completed this week, and that he then would be in a position to start litigation to acquire title to the lands in the name of the city.

Wm. G. Bonelli Senate Candidate

At a meeting of the sponsors of the candidacy of William G. Bonelli for United States senator today, announcement was made of Bernard C. Brennan, lawyer and outstanding civic and church leader, as campaign director.

Brennan said: "Seldom has California had the opportunity to choose as its advocate in the United States senate a man so thoroughly prepared by education and experience as William G. Bonelli. His proven integrity and courage would assure us of forthright and successful representation.

"His program is simple and American: American victory on the battlefront and at the peace table. Preservation of personal liberty and free enterprise in America. Abatement of bureaucracy and paternalism. Federal programs for war veterans' welfare, old age relief, post-war agriculture, industry, and labor. International policing to halt agressor nations, assuring all nations the right to govern and feed themselves."

Campaign headquarters will be opened in all key sections of the state in the near ufture.

Bonelli said: "Two things must be kept in mind throughout the campaign—first, I want my supporters to conduct a clean, sportsmanlike and vigorous campaign. I want nothing done against any of my opponents that would jeopardice the possibilities of party success in the November finals.

"Secondly, I want no solicitation of campaign funds from people in the liquor business or having business pending before the State Board of Equalization, of which I am a member."

Bonelli, former professor of government and law at Occidental college, entered politics in 1927, winning election as president of the Los Angeles City Council. Thereafter he served a term in the California State Legislature, following this public service by being for three years the director of Professional and Vocational Standards of California.

His present position, which he has held for some six years, representing Southern California on the State Board of Equalization, is regarded as one of the most important in state government, covering over half of the business and population of the state.

INFANT BAPTISM AT METHODIST CHURCH

The Sacrament of Infant baptism will be administered Easter Sunday at a beautiful candlelight vesper service at 4:30 p.m., announces Rev. James F. Roberts, pastor Point Loma Methodist church.

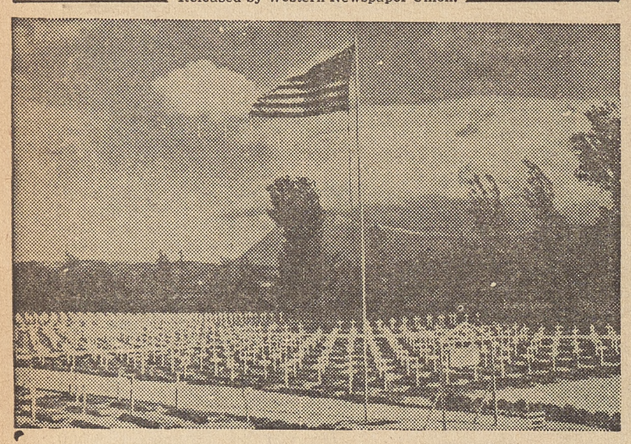
Those desiring to have their babies baptized please phone Rev. Roberts, Bayview 5509.

WEEKLY NEWS ANALYSIS

Nazi Forces Retreat Toward Rumania As Russians Regain Rich Farm Lands; Allied Troops Drive New Wedge Into Germans' Main Defense Line in Italy

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Released by Western Newspaper Union.



Italy— Row on row, these little white crosses in Mount Soprano cemetery mark the graves of fallen American Doughboys in Italy.

OPA:
Renewal Sought

Claiming that OPA has held wartime price increases to half the level of World War I, Price Administrator Chester Bowles appeared before the senate banking committee to testify for continuation of the agency for another year.

Chester Bowles

Following early increases to iron out prewar depression prices, the cost of living has been held absolutely stable during the last 11 months, Bowles said.

Asking for retention of present powers, Bowles said OPA would continue with present techniques for keeping down prices, including subsidies, which he called essential.

Cattle Subsidy

To bring cattle off the range and prevent a market glut in the fall, OPA considered increasing packers' subsidies by 30 cents to enable them to offer higher prices for the stock during spring and summer.

At the same time, government officials considered placing a floor under medium and lower grade cattle whose quality may be affected by the tight feed situation, with floors for the spring and summer above those for the fall.

While increased subsidies were being considered for cattle, lower subsidies were being studied for hogs, in line with government policy for decreased pig production. Now $1.30 a hundred pounds, the hog subsidy may be cut by 30 cents.

SOLDIER VOTE:
President Gets Bill

Passed by congress, the compromise soldier vote bill, allowing use of the short federal ballot if certified by the governor and state ballots are unobtainable, found its way to President Roosevelt's desk for signature or veto.

Once outspoken in his opposition to a bill limiting soldier voting to state ballots alone, the President took up the compromise measure with caution before acting, wiring all 48 governors to report to him whether they would permit use of the short federal ballot, which only lists the presidential and congressional offices without including the names of the candidates.

If the governors O.K. the short federal ballot, servicemen will only be able to use it if their states have no absentee voting laws, or if they have applied for state ballots but have not received them.

RUSSIA:
Free Ukraine

Germany's remaining foothold in the Ukraine was loosened as Russian troops smashed into Nazi lines along the Bug river, and as the enemy's forces fell back toward Rumania, the Reds regained the rich farm and mineral land.

As Russia scored its military success in the south, Finland in the north turned down Moscow's armistice offer, based on restoration of the 1940 borders and internment of German troops entrenched in the little country.

Russia's southern drive carried Red troops to within 30 miles of the prewar Rumanian border, while farther to the northwest, they were within 100 miles of the old Czech and Hungarian frontiers.

EUROPE:
Drive Wedge in Italy

Having driven a wedge into the Germans' main defense line by leveling Cassino with a devastating aerial attack by heavy bombers, Allied forces fought hard to advance up the road to Rome and get at the rear of the enemy hemming in U. S. and British troops on the Anzio beachhead.

Although the thunderous leveling of Cassino left that once-fortified village standing directly on the road to Rome a pile of jumbled mortar, Nazi guns established in the surrounding hills continued to rake Allied troops, making progress slow.

Preliminary to the big showdown in the west, Allied bombers continued to roar over Axis Europe, ripping at Nazi channel defenses, France's network of rails over which the enemy plans to shuttle troops to meet invasion armies, and German industries turning out the weapons of war. To counter the raids, the Nazis sent up swarms of fighter planes, and great sky battles raged.

PACIFIC:
Troubled War-Lords

As U. S. army and naval forces kept up a running fire over the entire Pacific area, Japan's jumpy little war-lords had this to worry about:

Continued Allied bombings of Weewak, New Guinea, and Rabaul, New Britain, feeder bases for Jap troops in those regions.

U. S. control of the Admiralty islands lying along the supply route to Rabaul.

General MacArthur's increasing isolation of the 30,000 Jap troops hemmed in on Bougainville island in the Solomons, with the U. S. fleet and air force in control to prevent major reinforcement or general withdrawal.

Navy and army bombers continuing attacks on the Jap fleet's big outpost of Truk, guarding the entrance into the waters of the enemy's South Pacific empire.

DRAFT:
Tighten Deferments

In order to meet the services' demands for 1,160,000 men by July to bring military strength to 11,300,000, local draft boards have been directed to tighten up on all deferments, particularly for those in the 18 - 25 age group.

Gen. Hershey

Under the new directives issued by Selective Service Chief Lewis B. Hershey, only indispensable employees, regardless of family status, are to be deferred, and only the state draft head or national headquarters is to pass on any deferments for the 18 to 25 year age group.

Only farm workers producing 16 units will be eligible for deferment, and careful consideration will be given to the cases of 470,000 farm workers under 26.

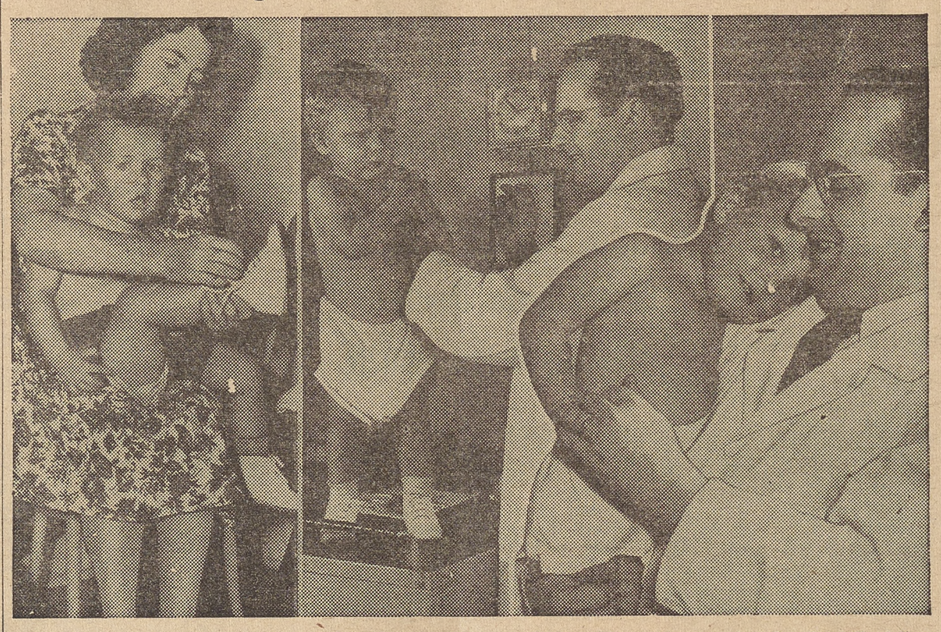
While Selective Service pressed for more men, General Hershey said few of the 3,485,000 4Fs will be found acceptable for military service. Only about 11 per cent of those with dependents, including fathers, have been taken thus far, he said, and only about 1 in 10 will pass physicals

HIGHLIGHTS . . . *in the week's news*

PENNIES: Since the copper situation has improved considerably, the War Production board has decided to permit addition of enough of the red metal to pennies to restore the old copper-zinc ratio of 95 parts copper to 5 parts zinc. Production rate currently is at 150 million one-cent pieces per month. It is expected that the annual output will exceed a billion steel pennies.

FOOD PROCESSORS: There will be a need for at least 700,000 seasonal workers in canneries and other food processing plants this year, Paul McNutt, manpower commissioner, says. This is 100,000 more than were needed last year. Students, women, and part-time workers will be the only source, he believes, though prisoners of war and soldiers on leave can be called upon.

Battle Against Disease Goes on Forever



The war against disease is one in which there is no armistice. It's a big war, too, for the toll of lives from diseases exceeds that of the battlefronts. These pictures take you to medical headquarters of the Children's Aid Society in New York and show you a phase of the battle against disease. Left: Dickie is next. Johnny has already gotten "the works." Center: "No fair." Johnny trusted the nice man and was pricked with a nasty needle. Right: This little chap cuddles up to the doctor as if the doctor were his own dad.

Shopping in Washington With Senate Ladies

Congressional wives are doing most of the family marketing these days, as it is one of their big jobs to keep our lawmakers well fed and healthy. In picture at left little Dottie Clark helps her mom, Mrs. D. Worth Clark, wife of Idaho's senator, unload a bag of oranges. Center: Mrs. Claude Pepper, wife of the senator from Florida, arrives home with a basketload of groceries. Right: Mrs. Tom Connally, wife of the senator from Texas, checks the points in her ration book.

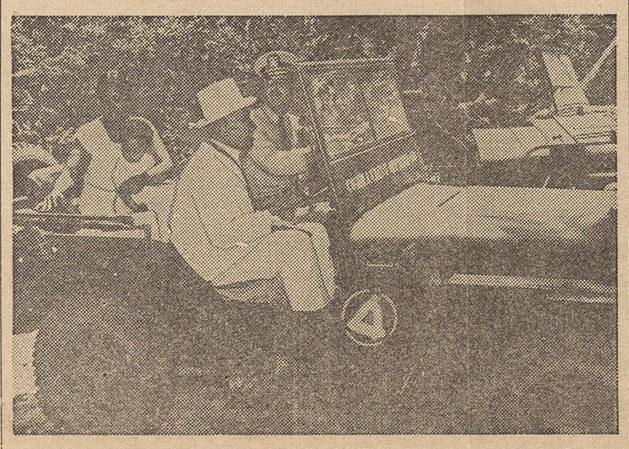
15,430,000 Hours of Girl Scout Service

A "check" for 15,430,000 hours of service by Girl Scouts since Pearl Harbor was presented to the President by three Girl Scouts, who represented the 850,000 members of their organization. Attached to the check was an invoice listing the type of work the Scouts have done for their country in wartime.

'Gung Ho' Carlson

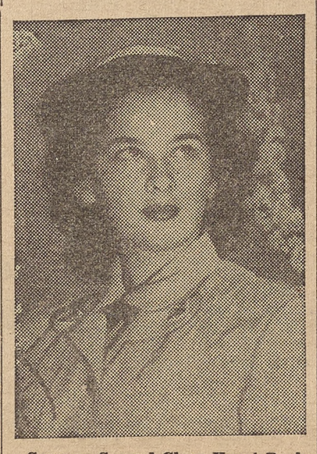
Lieutenant Colonel Carlson, famed marine Raider, spoke at celebration in honor of 19th anniversary of the death of Sun Yat-Sen. He is shown above, being greeted by little Marilyn Chu, who thanked him for aid to China.

U. S. Navy Entertains Island Royalty



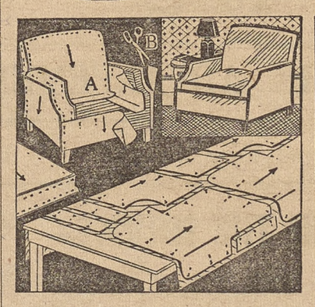
King and Queen Langlan of the island of Majuro tour their domain with Commander D. J. Brimm of the U. S. navy, at the wheel of his jeep. The royal family, which included Queen Langlan's child sitting on her lap, were feted by the navy after the island was captured from the Japs by American forces.

New WAVE Uniform



Seaman Second Class Hazel Barker poses in trim new uniform in which navy WAVES will work this summer. Made of seersucker, the new uniform is easily laundered and comfortably cool.

ON THE HOME FRONT with RUTH WYETH SPEARS



THERE are two ways to make a slip cover. One is to pin and then cut the actual material right on the chair; the other is to cut muslin or old sheets on the chair and then use the pieces for a pattern.

Whichever method is used, fit and pin the pieces smoothly but do not stretch them. Allow ½-inch seams and a 4-inch tuck-in around a spring seat. Notch the seams to show how they should be joined. When fitting a pattern, mark each piece with an arrow, as shown, to indicate which way the grain of the goods should run.

At the bottom of the sketch the pattern pieces are shown pinned to the material. If figured fabric is used, be sure to place the pattern pieces so that the design is centered for the back and the seat of the chair.

* * *

NOTE—This illustration is from BOOK 3 which also contains working directions and diagrams for other types of slip covers and many illustrated ideas for giving your house a fresh start this spring. Price of BOOK 3 is 15 cents. Address:

Heat From Fruit

In 24 hours at an air temperature of 60 degrees Fahrenheit, the respiration of one ton of certain fresh fruits, such as pears, in storage or during shipment, may produce more heat than 1,900 human beings.

JUST JESTING

Two Per Cent

"What's your son doing now—the one who swallowed half a dollar when he was a youngster."

"You mean Clarence? He's in a bank."

"Really? Do you get any interest on him?"

Qualified

Husband — Dear, you should be in Congress.

Wife — Why, dear?

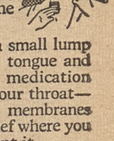
Husband — Because you're so good at introducing bills into the house.

What Cost

"Is it true that it cost $100 to have your family tree looked up?"

"Well, not exactly. I paid $5 to have it looked up, and $95 to have it hushed up."

IF THROAT IS SORE



IF A COLD has given you a miserable sore throat, here's how to relieve the suffering.

DO THIS NOW—Melt a small lump of VapoRub on your tongue and feel the comforting medication slowly trickle down your throat—bathing the irritated membranes—bringing blessed relief where you want it, when you want it.

DO THIS TONIGHT — Rub throat, chest with VapoRub. Its long continued poultice-and-vapor action loosens phlegm, relieves irritation, eases coughing, invites restful sleep.

AN INDEPENDENT PAPER

HAVE YOU REGISTERED?

A peculiar paradox is evident in the wild scramble to provide ballots for boys thousands of miles away with a war on their hands, while unparalleled numbers of good citizens here at home fail to even register! State registration figures are the lowest in 14 years! If the right to criticise public officials and public affairs depended on exercise of the franchise, the privilege would be so precious everybody would scurry to secure it. The moral responsibility is just as great as though there were such a law on the statute books. The deadline is April 6. HAVE YOU REGISTERED?

◆ ◆ ◆

SIMPLE—VERY SIMPLE

Nothing could be more simple than a shoe lace—so we thought.

However, the "GI" description makes it a trifle complicated by stating that it "consists of a manually operated length of string joined together by stitching so as to form a superficially broad-surfaced-appearing ribbon of rugged texture."

Is that what we use to keep our shoes on?

◆ ◆ ◆

NEW EXCISE TAXES ARE HEAVY

On April 1, you will begin paying higher excise taxes by which the Federal Government expects to collect more than a billion dollars in additional revenue annually. Tax on liquors, furs, jewelry and other luxury items will move up sharply. At the movies and on other admission tickets you will pay one cent tax for each five cents admission charge. Even before April 1, however—March 26, to be exact—you need a three-cent stamp for local letters instead of a two-cent stamp and eight cents for air mail instead of six. Postal money rates will be almost double the old fees. A $2.50 money order will cost you 10 cents; a $10 order, 19 cents and so on up to 37 cents depending upon the amount of the money order. It is believed that these new rates will encourage greater use of bank checking accounts for transferring money since the cost does not exceed 10 cents per check. The cost of money orders issued by banks apparently will remain unchanged with the largest bank in the State continuing its charge of 15 cents per money order regardless of the amount. On your local telephone bill the tax will increase from 10 to 15 per cent. Night clubbers will find that Uncle Sam's fee on their entertainment will jump from five per cent to 30 per cent. So it looks like we have Uncle Sam—as well as the devil—to pay.

◆ ◆ ◆

GUAYULE PROGRAM COST MONEY

The Agricultural subcommittee of the House of Representatives will undertake an investigation of California's guayule rubber program within a few weeks. Representative Phillips of Banning said that $37 million had been spent on the program but only 400 tons of rubber had been produced. Hearings will be started in Southern California and will be concluded at Salinas, where guayule growing has been most extensive. Many acreages have been abandoned but John Public does not know why. Was it because guayule is a failure or other methods cheaper?

Civilian Defense---

DISTRICT No. 7

Bayview 6101

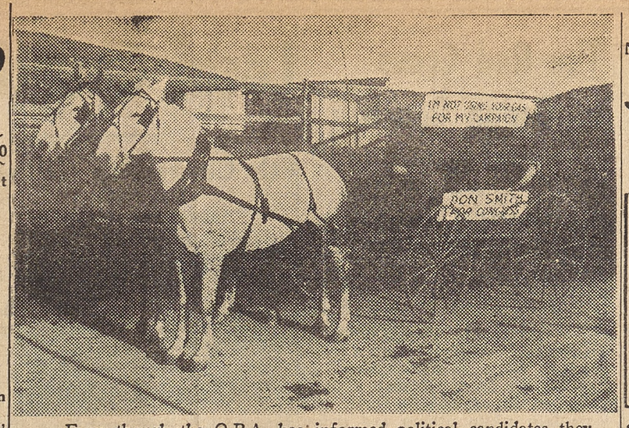
We are very pleased to report that since last week many block leaders have advised that they have been holding "sewing bees" and have finished a number of lap quilts.

The Easter favors and cards have been coming in and we are still collecting them, however these must be turned in no later than April 3rd in order to reach the boys in time.

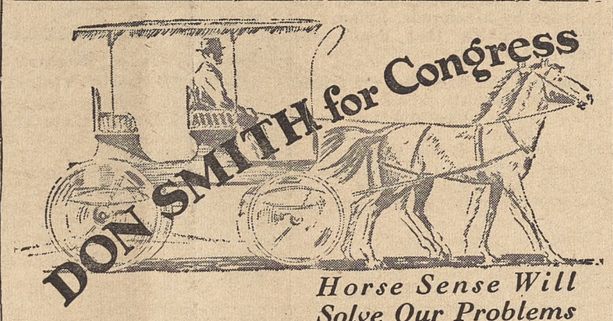
Our monthly Central committee will be held on April 5th, at 10 a.m. in the directors' room of the Chamber of Commerce building. An invitation is extended to all sector leaders to come to this meeting and ask their block leaders to attend also. The meeting being held during Holy week, the main theme will be Easter and a very pleasant, well-spent two hours is assured. On the program will be Chaplain Stevenson who will appear in shepherd's robes and speak on the Holy Land. Also there will be a book review on "Journey into America" and the awarding of the service pins to the district leaders.

Block leaders are again urged to write in their letter stating the number of hours served on Civilian Defense during January, 1942 to August, 1943. Service pins will be awarded to those having 500 or more hours.

A tightening of shoe rationing is almost a sure thing—maybe to a pair a year . . . Pigskin shoes are a possible outlet to relieve shortage . . . It's not too late to give the ol' shinola to the ones you have to protect and polish the leather.



Even though the O.P.A. has informed political candidates they may have extra gasoline for campaign purposes, Don Smith, Republican candidate for Congress, will apply for none, choosing rather to tour the county in this old-fashioned "Surrey With the Fringe on Top."



Horse Sense Will Solve Our Problems

Perhaps you're wondering why "The Surrey With the Fringe on Top." When I opened my mail the other morning, out came a notice from the O.P.A., telling me that, as a candidate for Congress, I am entitled to all the gasoline I need.

I'M NOT USING YOUR GAS FOR MY CAMPAIGN!

AMERICAN HEROES
BY LEFF

Torpedoed at night, men of the Merchant Marine abandoned their fast-sinking ship. Frederick R. Zito, Cadet-Midshipman, left his lifeboat, climbed hand over hand up the falls to free a 250-pound fireman. Unable to loosen the ropes, he cut them free, then towed the entangled man until they were picked up by a lifeboat. His is heroism beyond the line of duty. That *extra* War Bond *you* buy may save a life!

The Red Cross In Ocean Beach

By ONA E. PITCOCK

A Dying Soldier Speaks.

WHAT DID YOU DO TODAY?

'We fought but are you fighting?'

Rep. James W. Wadsworth (R-NY) interrupted an argument in the house recently to read a poem written by a soldier injured on the Italian front. It was a challenge to Americans at home who complain while others are dying abroad.

Wadsworth did not identify the author but said the poem was sent to him by a general. The soldier-author had suffered a serious injury and his foot had been amputated by a comrade. Lying in a ditch, thinking that death was near, he wrote:

What did you do today, my friend
From morn until night?
How many times did you complain
The rationing is too tight;
When are you going to start to do
All of the things you say?
A soldier would like to know, my friend,
What did you do today?

We met the enemy today
And took the town by storm.
Happy reading it will make
For you tomorrow morn.
You'll read with satisfaction
The brief communique.
We fought, but are you fighting?
What did you do today?

My gunner died in my arms today.
I feel his warm blood yet.
Your neighbor's dying boy gave out
A scream I can't forget.
On my right a tank was hit,
A flash and then a fire;
The stench of burning flesh
Still rises from the pyre.

What did you do today, my friend,
To help us with the task?
Did you work harder and longer for less?
Or is that too much to ask?
What right have I to ask you this?
You probably will say.
Maybe now you'll understand;
You see, I died today.

If you have not been contacted for your Red Cross donation will you please call your local Red Cross center, B-5639 or Mrs. Morris Fried, B-9222 and it will be called for. Never has the Red Cross needed your donation more, and as you are the Red Cross, please give generously. It is your best of helping our boys.

In the little town of Window, Minn., a town of 2000 population, a hero of African, Sicilian and Italian fronts was asked to speak at a war funds drive, h said "No, I will not speak, the boys over there do not have t be asked to do their duty an those on the home front should not have to be asked to do their duty." Remember his words.

I want to thank those who have given so generously of citrus fruit for the Servicemen club in Balboa vark. Mrs. and Mr. W. H. Syer of La Mesa gave 30 lugs of fine large limes, Capt. Charles F. May of 4471 Brighton ave., gave lemons as did Mrs. A. A. Kneicht. Mrs. Wilson Chamberlain gave grapefruit. These boys have served long hitches in foreign climates and many have had malaria and need these juices. Please call the center if you have fruit to donate.

Mrs. Mae Heidbrink, Mrs. Oberhellman, Mrs. Bodendeck, Mrs. Knecht, Mrs. Roshon, Mrs. Rogers and Miss Dorothy Sexton have been working through the center in the Red Cross roll call. They have given of their time and strength but have collected several hundred of dollars. How much comfort that money will buy our fighting men. No words I can say will thank them enough. Ocean Beach women are wonderful, as a whole, they knit, sew, bake cookies, collect gifts for our gift box and when a chaplain calls for a hurry up order of altar cloths they drop everything and that order gets out on time. They make aprons, pot-holders and gifts for our sale which will be held this spring in the Thrift Shop. They have gone out on the Red Cross drive and all I can say is God Bless them. There are still a few who are not helping to fight this war, to them I can only say they would be happier if they were doing their share.

All who have bits of yarn that they cannot use please donate them for toe socks.

Mrs. Annie C. Burch, 87 years young, donated the yarn and made a wonderful sweater which will be sold and the proceeds given to the Red Cross. What a wonderful woman, may she live many years more, as women like her make this world a better place to live in.

Easter and Mother's day we want all the cookies we can get so that each boy will be remembered. Boxes will be decorated in pastel shades. These cookies are so enjoyed by the boys. The Sacajawea Girl Scouts brought cookies made in shapes of bunnies, rabbits and eggs. These were frosted and covered in colored sugar. When they arrived at the hospital the nurses in that ward got ice cream and the boys had a party. It helps the boys pass away the time besides it helps as morale.

You have read the poem at the beginning of this column now I want to tell you what happened. It reads like a fairy story. When this boy was found he had a spark of life still burning and by the use of many transfusions of blood plasma his life was saved. Please call F-7704 and donate your blood.

Service of Prep. for Easter Communions—7:30 p.m.

OCEAN BEACH SCHOOL NEWS

Friday, March 24, Mrs. Conger's second grade children entertained their mothers and fathers.

The children have an airport similar to Lindbergh field in their room. They planned an airport play.

Rosemary Comito was the master of ceremonies. Gene Muchmore was the night control tower operator. As morning came he was relieved by Richard Hebert and Arthur Sherwood. When the pilots reported they got in touch with the control tower and plans were made for the take-off. The tower helped many airplanes take off and land safely. When the planes landed they were met by the fuel truck and the repair man.

Jacquelyn Bullock led the group in their favorite songs. Mrs. Sherwood made airplane cookies for everyone.

Everyone enjoyed hearing Richard Hebert play his violin.

The children enjoyed entertaining their mothers and fathers. Forty parents attended the program.

Last Thursday, the third grade in room 10 invited Miss van den Akker's room to see and hear about their model dairy farm. Cordelia Wedgewood took the visitors on a conducted tour, pointing out the fields, pastures, hay barn, milking barn, milk house and equipment.

David Russel took them inside the large milking barn, made by Sue Donna Stancil and Milford Shears. There Roberta Willis, dressed in the snow white suit and cap which Paul Bartley and James Harris had made, demonstrated how Jemima, the life-sized Jersey cow, is carefully washed, brushed and dried before milking. Suzanne Sharon and Sally Bonham worked hard to make Jemima, and although she doesn't look quite like any other Jersey cow you ever saw, she gives the richest milk you could drink.

James Harris and Howard Runk told how the class had pasturized half a bottle of milk, left the remaining half raw, then experimented to see which would sour first.

The class' experience in making cottage cheese was related by Chuh-Teh Killian. Errol Praised told how they had experimented with mixing oil and water to find out what makes cream rise, and Cordelia Wedgewood explained the process for homogenizing milk. The program was concluded with the story of how people in other countries get their milk, as told by Sandra Getts, Suzanne Sharon and Sally Bonham.

To Feature Soloists at Methodist Church

The Point Loma Methodist church will have as its guest soloist Robert McKnight, warrant officer in the U. S. Marine Corps, who will sing "The Palms," Rev. James F. Roberts, pastor, announced today. The choir also will sing as a special anthem "Who Rides From Olivet." Rev. Roberts will preach on the subject "Jesus Enters Jerusalem."

During Holy week Rev. Roberts announced that there will be services Wednesday evening at 7:30, Holy communion Thursday evening and special prayer for men and women in the armed forces Friday evening. There will be special music at each service. On Friday evening the guest soloist, the brilliant baritone soloist of the First Congregational church choir will sing the famous negro spiritual "Were You There When They Crucified My Lord." Rev. Roberts will speak on the subject: ,'The Message of the Cross."

Everyone is cordially invited to attend these special services.

[illegible]

The Golden Text of the Sunday Lesson-Sermon on "Unreality" in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, is from Jeremiah and reads: "Truly in vain is salvation hoped for from the hills, and from the multitude of mountains: truly in the Lord our God is the salvation of Israel."

A citation from the Psalms reads "Because thou hast made the Lord which is my refuge, even the most High, thy habitation; There shall no evil befall thee, . . . For he shall give his angels charge over thee to keep thee in all thy ways." A selection from the Acts relates "there sat in a window a certain young man named Eutychus, being fallen into a deep sleep: and as Paul was long preaching, he sunk down with sleep, and fell down from the third loft, and was taken up dead. And Paul went down, . . and embracing him said, Trouble not yourselves; for his life is in him. . . . And they brought the young man alive, and were not a little comforted."

Mary Baker Eddy writes in "Science and Health with Key to the Scriptures:" "Accidents are unknown to God, or immortal Mind, and we must leave the mortal basis of belief and unite with the one Mind, in order to change the notion of chance to the proper sense of God's unerring direction and thus bring out harmony."

Indian Chief Had His Own Idea on Contentment

An American gogetter noticed an Indian chief lolling at the door of his wigwam out west.

"Chief," remonstrated the gogetter, "why don't you get a job?"

"Why?" grunted the chief.

"Well, earn a lot of money."

"Why?" insisted the chief.

"Oh, if you worked and saved your money, you'd have a bank account."

"Why?" again asked the chief.

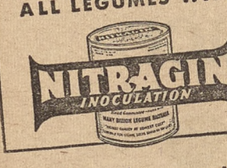
"For heaven's sake!" shouted the exasperated gogetter. "With a big bank account you could retire, and then you wouldn't have to work any more . . ."

"Not working now," pointed out the chief.

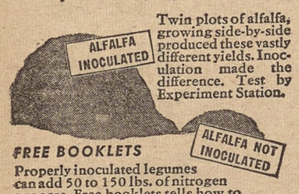
RELIEF

Just 2 drops Penetro Nose Drops in each nostril help you breathe freer almost instantly. Relieve the head cold nasal misery. Only 25c—2½ times as much for 50c. Caution: Use only as directed. **Penetro Nose Drops**

INOCULATE
ALFALFA—SOYBEANS
ALL LEGUMES WITH



It costs about 12¢ an acre and takes only a few minutes to inoculate seed with NITRAGIN. Yet it frequently boosts yields of alfalfa, clover, soybeans, other legumes up to 50% and more. It increases feeding value of legume hay and pasture, helps build fertility. Tests prove it pays to inoculate every seeding of legumes regardless of nodules on roots of previous crops. NITRAGIN provides selected, tested strains of nitrogen-fixing bacteria. NITRAGIN is the oldest, most widely used inoculant—in the yellow can, at your seedsman.



Twin plots of alfalfa, growing side-by-side produced these vastly different yields. Inoculation made the difference. Test by Experiment Station.

FREE BOOKLETS
Properly inoculated legumes can add 50 to 150 lbs. of nitrogen per acre. Free booklets tells how to grow better legumes. Write to the—

THE NITRAGIN CO., Inc., 3899 N. Booth St., Milwaukee 12, Wis.

SNAPPY FACTS ABOUT RUBBER

Window screens, rust-proof and flexible, that will roll up like shades are among the rubber products promised for post-war service by B. F. Goodrich technicians.

In 1942, automobile graveyards wrecked 2,043,000 cars. It is estimated that 1,196,000 cars will have ceased their rubber-wearing activities in 1943 through the medium of the wrecker.

Don't forget the spare in rotating tires, for rubber not in service ages more rapidly than when in actual use.

At least 16 Latin-American countries have soil and climatic conditions suitable for the growing of rubber.

YOU WOMEN WHO SUFFER FROM

HOT FLASHES

If you suffer from hot flashes, weak, nervous, cranky feelings, are a bit blue at times—due to the functional "middle-age" period peculiar to women—try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Taken regularly—Pinkham's Compound helps build up resistance against such distress. *It helps nature!* Also a fine stomachic tonic. Follow label directions.

WHEN INFLATION IS HATCHED

THE 60 million workers employed in the mines, factories, forests and transportation systems of America received last year more than three fifths of the national income of 140 billion dollars. The other less than two-fifths went to the farmers, the merchants; city, county, state and federal government officials, including police and teachers; lawyers, doctors, preachers and other professional classes; business management, including sales, and as interest compensation to those who provided the money for the plants and tools that 60 million workers might have jobs.

Labor keeps up a continuous demand for a larger cut of the national melon, and a smaller part in the tax payment.

Not alone is the average hourly wage of labor greater than ever before known in this or any other country, but hour and wage scales have been so arranged as to make the weekly pay check out of proportion to the hourly wage.

The President prescribed the "Little Steel formula" as a wage measure based on a 40-hour week. To meet the demands of labor, and hoodwink the public, eight more working hours were provided for, not at the established hourly wage, but at 1½ times that wage.

It meant that the worker, working 40 hours each week at an hourly wage of $1.25, received $50 for his regular 40 hours, on top of which his pay check for the week included $11.80 for the extra eight hours, a total of $61.80 for the same number of hours he had been working until the government decreed the 40-hour week.

There are less than 30 million families in the United States, and the 60 million workers could represent, at the most, not more than 20 million families. That means an average of three workers per family, with an average weekly earning per family of better than $180 per week. Such figures are approximately correct in plants working on government contracts and in the mines.

It is such conditions that have produced the wild orgy of spending, out of which has been hatched the threat of inflation.

If sympathy is due it should go to the farmers, the white collar workers and especially to those who saved and invested their savings in the plants and tools of American industry and transportation that those savings might provide for their declining years. They are more entitled to consideration than the class demanding an ever-increased income with which to meet the price demands of that inflation their spending has created.

* * *

WE ARE A NATION OF 'FUNDAMENTALISTS'

IF I WERE SEEKING a name for a new political party, a name that would express the desires of a large majority of American voters, I would use the word "fundamentalist" as that name. We are not radicals or conservatives, liberals or standpatters. We do not want to make America over. We do want the America we had, the America our fathers and grandfathers had. We want the methods, the form and kind of government, under which we grew from practically nothing to the strongest, most prosperous nation in the world, with the highest living standards any people have ever enjoyed. We have sacrificed progress in a trial and error effort at finding ways to more progress. We, as a people, are not interested in any of the modern day isms. We want to get back to those fundaments, as expressed in our Constitution and our bill of rights, laid down for us by the founding fathers. The party that expresses just that as its platform and purpose will appeal to the great majority of the American voters. Yes, most of us are fundamentalists.

* * *

HAVE YOU A FAVORITE 'WHIPPING BOY'

AN ACQUAINTANCE of many years was rated as, and was, a successful executive. His friends marveled at the even tempered disposition that enabled him to operate an extensive plant with no evidence of friction in any department. The secret was a "whipping boy." He "blew off" when necessary, at the expense of one employee who was kept largely for that purpose. That employee knew his job depended on his accepting abuse when anything in any department went wrong. To him it was all a part of the day's work. If we but analyze ourselves we will find that each of us has a whipping boy.

* * *

SHOULD THE COW BARN leak and you repair the roof to protect the calf, you can deduct the cost from your taxable income. Should the roof of the baby's bedroom leak and you repair it to protect the child, that expense cannot be deducted. So says the treasury department.

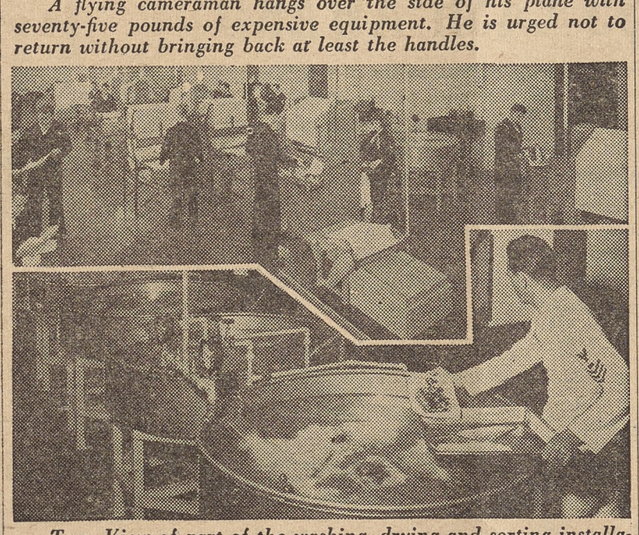
* * *

ANOTHER HUNDRED BILLION added to what we have spent sums up to more than we will want to pay. Just the same war bonds are the best and safest investment you can find for your dollars.

Putting the War on Film

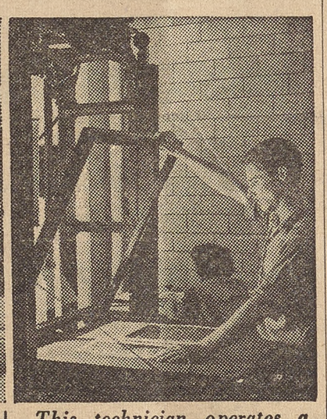
In the photographic science laboratory at the U. S. naval station, Anacostia, D. C., a staff of expert technicians labor to put the war on film. The camera has many assignments in war from reconnaissance to illustrating history books.

A flying cameraman hangs over the side of his plane with seventy-five pounds of expensive equipment. He is urged not to return without bringing back at least the handles.



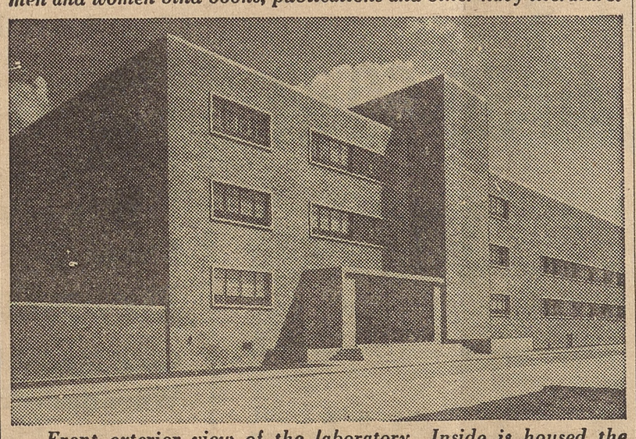
Top: View of part of the washing, drying and sorting installations. Thousands of prints are made on each eight-hour shift. An increasing number of WAVES are being assigned to the laboratory. Bottom: Large tank washers finish photographs.

A WAVE cuts negatives after editing for release printing.



This technician operates a giant copying camera.

Binding is another task handled by the laboratory. Enlisted men and women bind books, publications and other navy literature.



Front exterior view of the laboratory. Inside is housed the navy's most modern and extensive photographic equipment.

Color photographs are produced from separation negatives like the one being viewed here.

Chilean Textiles

Development of the Chilean textile industry is being encouraged by the Chilean Development corporation. Special attention is being given to improvement in quality and to lines which are in their early stages, such as woolen cloths (panos de lana peinada), elaboration of yarn (hilados) of natural silk and linen and the industrialization of other textile fibers.

Through investments by the Fomento corporation and private individuals, the first linen spinning mill (hilanderia) has been established in La Union, Chile, and, according to the corporation, is the most modern and complete in all Latin America. It takes advantage of the surplus linen fiber obtained from crops in the Valdivia and Llanquihue zone.

Horse Hair

One of the objections to the use of horse hair as a substitute for hog bristles in wartime paint brushes has been the absence of "flags" or splits at the ends of the horse hairs. The exigency of wartime is reported to have led to intensive research by brush manufacturers which has resulted in production of an artificial flag on the end of horse hair, which, with the development of a blend of different lengths of horse hairs, has resulted in a brush which is said to properly flow paint and spread it evenly on any given surface. The artificial flag is obtained by splitting one end of the hair into several divisions, so that the finished product is similar to the natural flag end of natural hog bristles.

W. J. Cannon, secretary of the Canadian Brush Manufacturers association, reports that the new brush is claimed to be superior to brushes made of fiber and horse hair mixture, previously available. It does not leave brush marks to the same extent; also, where the fiber had a tendency to break and leave particles on the painted surface, this is almost entirely eliminated with the new brush, says the report.

SAMPLE RECIPE FROM OUR DELICATESSEN DEPARTMENT

Eggs with Rice en Casserole

2 cups boiled rice	1 tablespoon butter
6 hard-cooked eggs	1 tablespoon flour
½ cup grated cheese	½ teaspoon salt
1 cup milk	¼ teaspoon pepper

Make a cream sauce with the milk, butter, flour, salt and pepper. Add the cheese. When metled, pour over alternate layers of rice and diced hard-cooked egg. Cover top with buttered bread crumbs. Bake in moderate oven (325 degrees F.) 20 minutes. Serves 6.

Historical Sketch On California

(Morningside Park News)

CALIFORNIA — Capital, Sacramento—Eldarado State, also Golden State — State Flower, Golden Poppy — Motto: Eureka (I Have Found It)—Area 158,297 sq mls; rank 2nd place in area. Land surface 155,652 sq mls. Water surface 2,645 sq mls. Land surface acres 9,617,280. Water surface acres, 1,692,800 acres. Total land and water surface acres 101,310,080. Length of State 770 miles by 375 miles in width. State has 58 Counties, was settled in 1769, and entered the Union September 9, 1850. State's wealth in 1929, was $17,048,000,000: or $3,092.00 per capita. Total population April 1, 1940 was 6,907,387, of this total 3,515,730 were Males, and 3,391,657 were Females, also of this total in 1941, there were 573,687 who were 60 or more years of age (Bureau of the Census Record), and approximately 500,000 of this age group will qualify as recipients of the Townsend "Califronia Employment and Retirement Mutual Insurance Plan" which will be an Initiative Measure to be submitted Directly to the "Electors Initiative Constitutional Amendment." "Retirement Payments, Gross Income Tax," Adds Article X X X providing $60.00 monthly payments, beginning June 1945, to citizens having required residence, who are Sixty years old or over, or totally and permanently disabled, including those in military service, or Blind in 1930, the Bureau of the Census gave the number of Blind, in the United States, as 63,489; of this 36,529 were males and 26,960 were females. Recipients prohibited from gainful occupation and required to expend payments. Provides 3 per cent gross income tax on persons and organizations, except non-profit organizations; proceeds distributed between State General Fund and special fund established for payments. Permits increase of payments, reduction and increase of tax, and relaxation of eligibility requirements. Repeals Sales and Use Tax.'

In this State Insurance Plan your policy can NOT lapse because of non-payment of premium, or from ANY other CAUSE. This Plan will guarantee $60.00 per month to each and every recipient, including disabled Veterans, the Blind and age 60 or over, the aged alone will receive $30,000,000 the first month checks, possibly more, these payments to be spent within 30 days from receipt of same, however, this compulsory spending clause will NOT become operative until Six months following cessation of hostilities of the present World War No. 2.

The Secretary of the U. S. Treasury says that the 1941-42 grants to the various States, for public assistance, was $374,684,421.18 of which California's grants were total $41,562,049.66, divided as follows: Old-age Assistance $36,384,121.76; Aid to Dependent Children $3,429,002.95; Aid to the BLIND $1,748,924.95. The California State total being the largest of any State in the U. S., Illinois being second largest, and Delaware's total being the smallest with $304,897.10.

The total potential Citizen voters, in the United States in 1940, who were 21 years old and over, was 83,996,629, however, the distressing almost unbelievable FACTS are that ONLY 49,815,312 VOTES were cast, by ALL political parties, for President of the United States in 1940. What an INDICTMENT of approximately Forty Million Citizens who ignored their voters franchise in OUR AMERICAN FORM of GOVERNMENT. Be a 100 per cent American and exercise your voters Franchise by Registering to vote. In California you must be in the State One Year; 90 days in the County and 40 days in the voters Precinct; must be 21 years of age; a Citizen, not a convict. Your voters Registration receipt will prove invaluable to identify yourself in Banks or in case of accidents or serious sickness. Join a Townsend Club and become a Townsend Millions Club Member.

AUXILIARY POLICE OF OCEAN BEACH READY FOR DUTY

The Auxiliary Police in this sector as well as throughout San Diego are receiving specialized instruction in the various branches of the San Diego Police Department. This program of education and instruction is under the supervision of Chief of Police Peterson and his assistant, Inspector Walter Scott, as head of the Auxiliary Police of San Diego.

The course of instruction includes radio broadcasting, identification bureau, procedure of jailing prisoners, traffic investigation, squad car duties and field sergeant duties.

The time served is one night each week of four hours lasting over a period of five weeks.

The Auxiliary Police is composed of many business and professional men who serve their time without pay for the express purpose of receiving a basic training to assist the regular police department in case of a catastrophe when a group of trained citizens would be prepared to give assistance for the preservation of the safety and welfare of the people of this city.

The Ocean Beach Auxiliary Police have a membership of 96 of which approximately 50 will be eligible for this special training. The local group is headed by Captain Charles D. Lehew and Captain John A. Titlow. The first squad of Ocean Beach men are Captain John Titlow, Lt. Don Cameron, Lt. Arthur Lester, Lt. Al. Munchiando and Lt. S. L. Barlow. The next group will be R. Victor Venberg, Lt. Martin Murphy, Lt. Wm. Nelson, Lt. Wm. Littlejohn, and Lt. Willard Davis.

Picture left to right: Lt. Art Lester, Lt. Al. Munchiando, Lt. Don Cameron, Lt. S. L. Barlow and Captain John Titlow.

THE STORY THUS FAR: Lieut. Col. Frank Kurtz, Flying Fortress pilot, tells of that fatal day when the Japs struck in the Philippines. Eight of his men are killed fleeing for shelter and Old 99 is demolished before it can get off the ground. Kurtz escapes to Australia, spends Christmas there, and then flies a Fortress to Java. On a mission to Davao in the Philippines their squadron hits a battleship, and sinks two cruisers and a transport. They take off from Malang Field for a target off Borneo, and fly through terrible fog for hours. When they pull out of it they see a frightful black cloud which proves to be smoke from burning Dutch oil fields in Borneo. Dutch had fired their fields.

CHAPTER X

"I finally decide to give it that thousand, and if I get back, let them jerk the wreck and put in a new one. With that extra thousand now, maybe I can get over the target—we're about to begin our bomb runs—and bag a cruiser, which is a good trade for a ruined airplane motor.

"Now we're approaching the exact position of the target, and I begin to realize the predicament I'm in. Because if I lose another motor on the same side, I'll have little chance of getting this plane home.

"All the time Jim's doing his best to stay with me, but I continue to fall back. And just then Harris, my bombardier, peering down through the broken overcast, calls 'Target ahead.' I'm glued to the PDI needle now, but when my bombardier starts to make his run and the bomb-bay doors come open, their extra drag on the air slows me down still more and I fall further behind Jim as I trim the ship both to compensate for those open doors and to keep the wing which carries that limping engine from falling.

"Then over my earphones Jim is calling: 'Bombs away, Frank—I'm turning off the target,' and far ahead I can see the sun glint on his upcocked wing as he heads for home. But I'm still on the PDI needle, my bombardier has picked up a beautiful target—a gang of transports and a cruiser down through the overcast, the sea is laced with their curving wakes as they try to get away—but he can't seem to hold any one of them in his sights long enough to make a good run.

"Finally Harris, in desperation, pleads over the interphones, 'Frank, I just can't hang onto that cruiser—let's turn east.'

"'Can you just hold it, Frank?' pleads Harris over the interphones. 'Just hold it, and we'll hang out one in just a second!'

"And then Jim Connally, 'For God's sake, drop your bombs and come on, Frank!' I can see Jim in the distance, getting smaller and smaller.

"Harris, the bombardier, peering down from the navigator's compartment, couldn't see anything when his bomb train hit the surface. But the tub gunner, peering straight down from the belly of the ship, swears he saw one of them go smack down for a direct hit on a Jap cruiser.

"With my limping motor, I could sit back and really begin to worry. I tried to level off, but of course I couldn't. I knew we were somewhere over Borneo by now. The altimeter showed we were 24,000 feet high, and in spite of everything I was doing we were dropping 100 feet lower every minute. I thought of landing on the camouflaged field here on Borneo but we might be too low even to bail out if we nosed down through this dense weather and couldn't find the field at once.

"Now dropping 100 feet a minute, if you can keep it from falling no faster than that, at the end of the first hour you'll be down to 18,000; the second hour, 12,000; the third hour, 6,000. So you see how it is. 'If you've got gas enough for four hours you've got barely enough altitude to make it back to Java,' I argued with myself.

"But it was going to be tough on the other boys. We'd been on oxygen for four hours, and ordinarily after a fight in the high air, which is a strain on everyone, the first thing you do is bring her down to 12,000 so everyone can take off his mask and relax. Only I had to hang onto my precious altitude, and it would be another two hours before we had fluttered down to 12,000.

"But it seemed it was the only thing to do, so I told my navigator, Walt Seamon, to set a course for Malang Field. Then it was up to me. I tried every trick in the book and a few I'd heard of to keep that rate of fall from rising, because if it went to 200 or 300 feet a minute only for a few minutes I knew we'd lose the plane. The automatic pilot was out (a little gadget had busted, and of course we had no spare parts), so my co-pilot and I had to do all the flying, worn-out as we were, but at least we didn't have to keep stations on any other plane now, or have the nightmare of maybe crashing into someone else.

"Then suddenly we had a breather, for the clouds vanished behind us and we were floating free out into the abyss of a cloud canyon—the same old one. Peering down, I seemed to see the gray wisps of that canyon's bottom practically trailing on the dull-green jungle-clad mountains far below. I doubt if there was even a thousand feet of ceiling, so we kept on our course. When we finally cleared the weather—we were out over the Java Sea south of Borneo—we were so far out that I realized we'd passed the point of no return. The only way we could go on now was towards Java, which was the nearest land.

"The field at Surabaya was a little closer than Malang, but I was afraid of its short runway, so with what gas and altitude we had left, we decided to try for Malang, but as we approached the mountain pass we could see the weather was settling down tighter and tighter on us, and looking ahead, I got afraid that when we got on up into the pass, the cloud ceiling might push us right down onto the pass floor, and I'd spill all the boys out into a rice paddy in that fog. I could see the crew was anxious too. I hadn't needed to tell them much of the fix we were in; they hadn't missed a trick.

"So then I took my last decision. Rather than nose on into that pass and use up my last gas trying to see what the weather there was really like (it turned out later it was terrible), I turned and headed back toward Surabaya Field while I still had contact flying, and while I had gas and altitude enough to get in.

(Which means while he could still see the ground.)

"When I finally saw Surabaya Field we had less than 1,000 feet of altitude left and I didn't dare think how little gas. So I didn't try to circle—just dropped my wheels, asked for the wing flaps, and set her down on that short runway, and

I got Col. Eubank on the telephone at Malang. He was most anxious.

could be thankful the Japs had left me my hydraulics so that my brakes would stop me on that strip.

"We taxied into our revetment and I got Colonel Eubank on the telephone at Malang. He was most anxious; I was the only one he'd heard from. I could only tell him what I thought were the results of the mission. It turned out later that the other planes had all come down at Kendari and Samarinda.

"He told me to take my crew and stay overnight at the hotel in Surabaya and come back to Malang the next morning. It was the first time we'd seen the big beautiful seaport metropolis of Java except from the air—months since we'd seen any big city. Here were stores, and glittering bars, movie houses, and the picturesque natives and the Dutch—a pageant of the Far East. But we were tired beyond any words I have to tell, from those eleven and a half hours in the air. The longest mission I'd ever flown. The manager of this big hotel wanted to make a big occasion of it. It was the first time they had seen the uniforms of those American aviators who were going to save Java. But after what we'd seen that day down through the mist, I wasn't so sure we would do it. There had to be more of us—and soon. So we told him no, thanks, no party. We all wanted to tumble into bed. We had an early alert scheduled to check the ship for our return to Malang."

* * *

"We soon got our first reinforcements," Frank Kurtz continued. "They were Fortresses of the brand-new E model. We'd heard them talked of in the States but I'd never seen one. There were many improvements, but most vital of all were the new tail guns. The old D model which I flew had been almost defenseless there; if a Zero came in directly on your tail, you had to depend on the cross fire put out from the plane flying next you on your wing. If you were alone you were a goner.

"The boys who flew these new E's were old friends of ours, the 7th Bombardment Group—friendly rivals in the Air Corps to our 19th Group. We'd competed with them at maneuvers and in practice bombing at Muroc Lake back home.

"But in January the reinforcements were a little thin trickle of the thousand planes we hoped for. Of course they were then terribly short of seasoned pilots, and often quickly trained kids were flying them, and cracking them up all across Africa and Asia. But it was all they had to send us. Sometimes six would start out from Tampa Field and maybe two would arrive at Malang. During the whole month of January we got only half a dozen.

"We were in the old 7th, which came out to reinforce you," said Master Sergeant Charles T. Reeves, the bombardier. He had been sitting beside the pilot, under the plane's wing.

"So was I," said Master Sergeant Rowland A. Boone, the gunner, who sat next to him.

"On the day of Pearl Harbor, the 7th was sitting on Hamilton Field, California—poised, waiting for one new plane to come off the Boeing assembly line before we took off across the Pacific for Manila. Of course the big news from Hawaii canceled that trip. We'd have to go around the world another way.

"Then they put me to work ferrying E's from the factory to Sacramento," continued the Gunner. "I was picking them right off the assembly line, two or three a day. It would have been wonderful if we could have had that many in Java. But the bottleneck then was pilots—the planes were all stacked up waiting for them, and no matter how fast you build Fortresses, you can't jerk a kid out of a Beechcraft trainer and put him in a Boeing. And by the way, when we got back to the States this summer, the bottleneck was still pilots. They still had several dozen E's stacked up on the factory field, waiting for men to fly them.

"I'll never forget my first look at the E-model Fortress. She had that big dorsal fin, and she looked a lot bigger—more deadly, too. Because not only were there tail guns, but much better side guns. And a whole stack of power turrets. On the old D model, the angle of fire from the radio guns and the belly guns had been very small, but this was corrected in the E, and the top turret was a honey!

"It doesn't hurt to talk about the D model, because the enemy has captured plenty of them. It's no more secret than the Model T Ford. But in those days the E was a surprise package—like the new F model is now.

"And when something is really new, the combat boys who have to take it up don't want it blabbed around. For instance when we were still out East, a copy of an American magazine arrived which gave a complete diagram of the E. It showed everything—the angle of fire of every gun, even the break in the fire angles for the propellers. There weren't many blind spots on the E where an enemy fighter can sneak in, but this diagram showed every one.

"Our gang talked over that damned picture for days. 'Hell's bells,' we said, 'why don't they give the Japanese a set of blueprints!' In addition, it showed the exact position of every man on the plane, so the Japs could work in through the blind spots and pick us off.

"It was all stuff we knew the Japanese didn't know, because all the E's we had lost up to then had either dropped in the ocean or burned after beaching. 'My God!' the other gunners said. 'They're selling us out back home. They might just as well take the guns off the plane and let the Japs shoot us down." That picture knocked our morale for days.

"But what the hell! Now the F model is out—nobody knows the exact improvements on that yet, and when the enemy fighters hit the F, they'll find out they've picked up a real hot potato.

"Let's get back to the trip over," said the Bombardier. "In my plane we left the States December 28. I'd had a blue Christmas—missed dinner because we were out testing guns—but didn't mind much, because we were itching to get over and into it.

"As we were approaching Brazil we ran into a hell of a front, couldn't get over it so our navigator could take sun shots and find out our position, weren't sure where in hell we were. My pilot, Captain Duane Skiles, first went up to 15,000, but there wasn't a break. Then he went back down through it, staying just 100 feet above the Atlantic. We hoped we were headed right for our field at Belem, but we didn't know. Finally I called to him over the interphones and said that in my old geography book, it said you could see the line where the yellow Amazon mixed into the blue Atlantic as far as four hundred miles out to sea—maybe he could pick this up and follow it in.

"Sure enough, we found this line between yellow and blue. But we were farther out to sea than we'd figured. By the time we hit shore, we were plenty low on gas and an hour overdue. It was getting dark, and there are no lights in that jungle—now and then you'd see a glint of a native with a torch down there. We couldn't pick up Belem, and we had just twenty minutes' gas left.

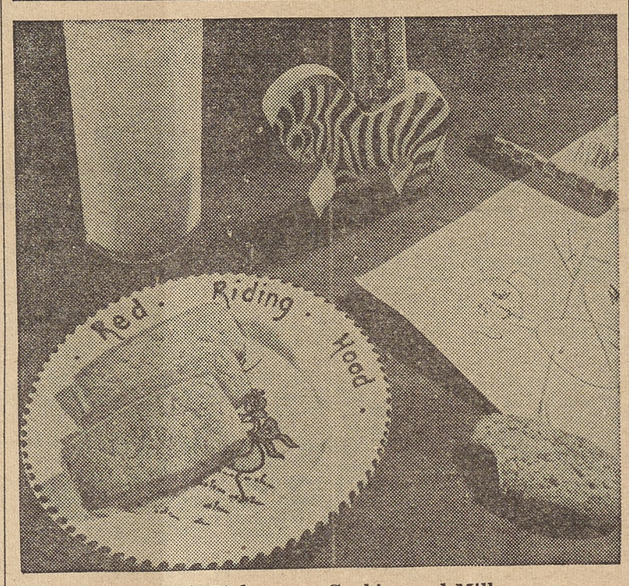
HOUSEHOLD MEMOS

by Lynn Chambers



Quick Pickup . . . Cookies and Milk
(See Recipes Below)

Fill the Cookie Jar

Sometimes I think the cookie jar is the favorite piece of equipment in the American home — especially in the kitchen. At least it's the most popular, and that's not just among the youngsters for many a time the oldsters make the path to the cookie jar just as often as the children.

If there are cookies in the house, then it's the kind of a house that spells "Welcome Home," for cookies are not just delightful to have, they often take the edge off hunger when it's most necessary—after school, or after a meal to give it the finishing touch.

Cookies aren't hard to make. They last longer than cakes. They take less ingredients, and they go much further. Keep a list of favorites on hand that will keep the cookie jar filled no matter how popular that jar is!

Save Used Fats!

Oatmeal and peanut butter have long been popular ingredients in cookies, but here they are together—guaranteed to be doubly popular:

Oatmeal-Peanut Butter Cookies.
(Makes 4 dozen)
¾ cup peanut butter
3 tablespoons shortening
½ cup brown sugar
½ cup granulated sugar
¾ cup sifted-all-purpose flour
¼ teaspoon salt
2 teaspoons baking powder
⅓ cup water
1¼ cups oatmeal

Cream peanut butter and shortening; add sugars gradually, creaming entire mixture. Stir in sifted dry ingredients and water. Add the uncooked oatmeal. Chill dough. Roll dough thin on lightly floured board and cut with cookie cutter. Dough may also be rolled and chilled and sliced ¼ inch thick. Bake on a greased baking sheet in moderate (350-degree) oven for 10 to 12 minutes.

If partified cookies are desired, frost with powdered sugar icing when baked and decorate with candied cherries and nuts.

Save Used Fats!

Hermit Bars.
⅔ cup butter or substitute
1 cup brown sugar
2 eggs, well beaten
¼ cup milk or coffee
1 cup baking molasses or sorghum
4 cups sifted cake flour
1 teaspoon salt
¼ teaspoon soda
2 teaspoons baking powder
1 teaspoon cinnamon
1 teaspoon each, ginger, cloves
1 cup nuts, chopped
2 cups raisins

Mix butter and sugar together. Add well-beaten eggs, milk or coffee, molasses and about 1 cup of flour. Beat well. Mix and sift remaining flour, salt, soda, baking powder and spices and add to first mixture. Add chopped nuts and raisins. Grease pans and line with waxed paper. Spread cookie mixture evenly in pans and bake in a moderate (350-degree) oven until firm. Cut into squares while warm and remove from pans while still warm.

Save Used Fats!

A cornflake cookie with orange flavoring will really enchant the family:

***Cornflake Refrigerator Cookies.**
(Makes 5 dozen)
½ cup shortening
½ cup sugar
2 teaspoons grated orange rind
2 cups cornflakes
1¾ cups sifted flour
2 teaspoons baking powder
¼ teaspoon salt
⅓ cup milk

Blend shortening and sugar together. Add orange rind. Crush cornflakes into fine crumbs. Sift flour, baking powder and salt together. Mix with crumbs. Add to first mixture alternately with the milk. Shape the dough into rolls about 1½ inches in diameter. Wrap in wax paper and chill until firm. Slice and bake on ungreased baking sheets in moderately hot oven (425 degrees) about 12 minutes.

Orange Refrigerator Cookies.
(Makes 6 dozen)
1 cup butter or substitute
1¼ cups brown sugar
1 egg, well beaten
1 tablespoon grated orange rind
2 tablespoons orange juice
½ teaspoon lemon extract
2 cups sifted flour
¼ teaspoon salt
¼ teaspoon baking soda
⅓ teaspoon baking powder
1 cup chopped nuts
1 cup wheat germ or wheat bran

Cream together butter and sugar Add egg, orange rind and juice, and lemon extract. Sift together flour, baking soda and baking powder and salt. Add nuts and wheat germ or bran. Add this to creamed mixture. Stir until well mixed. Shape into long rolls. Wrap in wax paper. Place in refrigerator to chill. When ready to bake, slice thin, and bake in a moderate (375-degree) oven for about 10 minutes until golden brown. Remove from pan. Cool.

Save Used Fats!

Economy Brownies.
1 cup sugar
2 tablespoons shortening
2 squares melted chocolate
½ cup milk
1 egg
1 teaspoon vanilla
1 teaspoon baking powder sifted in
1 cup flour
1 cup nuts, chopped fine

Mix in order given, bake in a greased shallow pan in a moderate oven (350 degrees) for 20 to 25 minutes. Cut in squares and cool.

Lynn Says

Make Cookies! It's fun to make cookies when you have the "know-it-all" right at hand. Make it easy for yourself by following these simple directions:

Start heating the oven before you actually make the cookies so all will be in readiness when you pop the sheets in the oven.

Assemble all the equipment needed. Assemble and measure the ingredients.

Prepare cookie sheets next. If cookies contain much fat, sheets need not be greased. Pans for bars should be buttered, lined with waxed paper, then buttered again.

Shortening creams best at room temperature. It should not be melted as this injures texture and flavor of cookie.

Eggs are usually well beaten before added to the shortening and sugar. If the quantity of eggs is small, they may be added directly to shortening and sugar.

PATTERNS

SEWING CIRCLE

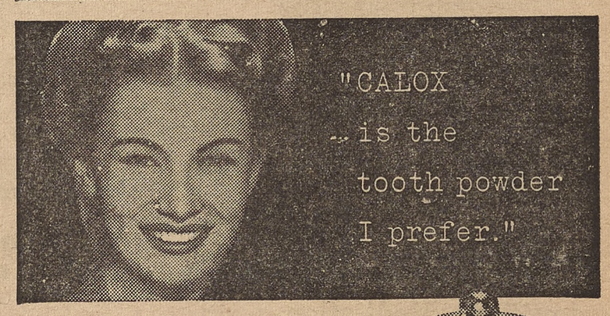
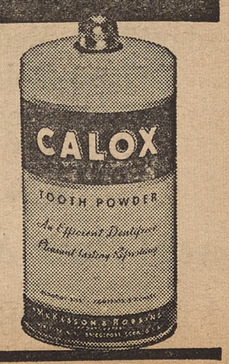
VERONICA LAKE speaking:
Co-Starring in "SO PROUDLY WE HAIL," a Paramount Picture.



A dentist's dentifrice—
Calox was created by a dentist for persons who want utmost brilliance consistent with utmost gentleness.
1. Scrupulous cleansing. Your teeth have a notably clean feel after using Calox.
2. Calox gently cleans away surface stains, loosens mucin plaque.
3. Made by McKesson & Robbins, Bridgeport, Conn.—a laboratory with over 100 years' experience in making fine drugs.



Appliqued Apron in Gay Cherry Design

EVEN as inexpensive a fabric as unbleached muslin can be made into mighty attractive aprons if you dress it up with bright appliques. Use bright red cotton for the cherries, green for the leaves—it will make a lovely apron!

* * *

To obtain complete pattern for the Cherry Apron (Pattern No. 5520) applique design and finishing instructions, send 16 cents in coin, your name and address and the pattern number.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

SEWING CIRCLE NEEDLEWORK
149 New Montgomery St.
San Francisco, Calif.

Kidneys Must Work Well-

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of *why* the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at nights, swelling.

Why not try *Doan's Pills*? You will be using a medicine recommended the country over. *Doan's* stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get *Doan's* today. Use with confidence. At all drug stores.

Wedding Rites Held In Baptist Church

Miss Mary Martha Wildman, daughter of Mr. and Mrs. G. W. Wildman of Ruffs Creek, Penn., exchanged wedding vows with Elmer Lee Snelson, MM 2/c, son of Mr. and Mrs. J. W. Snelson, 4419 Montalvo, at 12:30 p.m., Sunday, March 26, in the First Baptist church on Sunset Cliffs blvd.

The rites were read by the Rev. P. O. Jenson, and William Stone sang "I Love You Truly," accompanied by Mrs. Wanda Fields.

The bride was becomingly suited in olive green with black and white accessories. A corsage of white camellias topped her shoulder. Miss Verna Mae Hinrichs, as maid of honor, wore a blue-grey suit.

Cyrus H. Crow attended as best man and DeWitt Fields and Bill Crumpton ushered.

Following the wedding ceremony the young couple left for Los Angeles on a honeymoon trip.

Mrs. Snelson will be graduated from Pt. Loma high school in June. Mr. Snelson, who attended Pt. Loma high school and has been in the U. S. navy four years. He has just finished 20 months in South Pacific and will leave for submarine school in New London, Conn.

The bride is the niece of Mr. and Mrs. George M. Speer, 4761 Del Monte.

Mr. and Mrs. Joe Lewis, of National City visited his mother, Mrs. Ethel Hilliard, 4723 Lotus st., last week. Joe was raised here. He is now awaiting call into the service.

ANNOUNCEMENT TEA

At a tea given last week by Mrs. O. Radlbeck at her home, 1704 Monroe ave., the engagement of her attractive daughter, Miss Tam Radlbeck, to George L. McClintock jr., son of Dr. and Mrs. George L. McClintock, 3634 Plumosa dr., was announced. Tiny white porcelain love birds bearing the names of the two young people revealed the secret.

Both are graduates of San Diego high school. Mr. McClintock now is attached to the merchant marines. A wedding in the early fall is planned.

"I Noticed . . ."

(By Lillian)

And so will you, the mothers who have boys in the service are giving something every day without fail—money, cookies, days at the Red Cross—sewing, rolling bandages—blood donations, assisting the Red Cross drive—willingly.

To those who have not given enough, a visit to any government hospital where our men are wounded, helpless, alone in a silent ward, longing for a friendly word, would surely soften any heart no matter whether or not, they have a loved one in the service.

Those brave boys over there are not taking their time to ponder on what they should give, but are giving their all. Why can't we give our all over here. We do not have to crawl on our stomachs to dodge swift missiles—We do not hide in a foxhole—We do not eat hard tack and drink warm fluid—we do not sleep in a canvas bag—we do not bathe in a foxhole puddle—we do not live and sleep day after day in clothes after wading waist deep in mud and water—We do not have to be herded into barbed wire entanglements for treatment we know not.

Do we stop to think of all this? If not please do. We have many wonderful advantages to be thankful for. "Do unto others as you would like to be done by."

Letters, Ocean Beach mothers bring to our office, have words of faith, not fear. One boy writes his mother of memories of home, listening to her read verses from the Bible. One remains steadfast. "I Shall Never Forsake Thee." Others writes "Keep Faith" another "God Bless and Keep You All."

Give to the Red Cross
Whose compensation
Is not a bond with maturation,
But a man or boy
Though wounded and ill
May return in due time
To civilization.

Mrs. Margaret Sammon, 4745 Muir ave., has returned home from a short stay in Paradise Valley hospital.

Special Club Meeting Proved Beneficial

Mrs. Jeannette E. Daley, was among the loyal members of the Ocean Beach Women's club who attended the special meeting Tuesday held in the temporary clubroom on Abbott st., for the purpose of raising funds and making final decisions for the future clubhouse of the organization, made possible by the donation of a lot by Miss Jean Rittenhouse, where the building recently purchased by the club from the Board of Education will be moved.

Along with many of the members, Mrs. Jeannette Daily gave generously of her financial means and will also act as special advisor to the group in completing plans with the building committee. Praising the faithful few whose untiring efforts over a long period of time have made the venture possible Mrs. Dailey said "This clubhouse will not only be a credit to the members of the Ocean Beach Women's club but to the entire community, and will be the means of helping solve the problem of community entertainment which is now as vital to every section of the city due to transportation rationing."

The meeting was called by Miss Kate Spani, president, who expressed great satisfaction of the high interest and financial aid given by all those who took part in the meeting. Following the special session the group made an inspection of the building, which is still on the school grounds, and viewed with much pride the many possibilities of utilizing the entire building for greater future club developments.

Members and friends of the club who could not be present at the Tuesday meeting and would like to contribute large or small sums to the building fund may do so by calling Mrs. C. A. Baker, club treasurer, B-3901, or address 1470 Sunset Cliffs, San Diego 7, California.

THIMBLE CLUB MET

Royal Neighbors of America Thimble club met at the Door of Hope Thursday, to asssit them with mending and sewing. The regular meetings of the club is given over to the sewing needs of the Boys and Girls Aid society.

Your husband's new razor may feature a plastic handle, zinc head and plated-steel guard. They're first to be made since early 1942.

Scrap Paper Wanted

The Sea Scouts have taken on the job of getting scrap paper in to the salvage pile but want and are entitled to some help from householders.

Old newspapers and magazines must be tied in bundles and if you have more than 100 pounds they will be called for. If less than 100 pounds please deliver to 1676 Cable st.

Don R. McKenney is leader of the Sea Scouts, his phone number is Bayview 5510, which is the number to call when you have a good stack of old newspapers bundled up. You and your neighbor might join together to get the required amount if necessary.

Eastern Star To Entertain

Pt. Loma chapter, O.E.S., will meet in short form Monday, April 3 at 7 p.m. Fern Herbst, worthy matron and Leroy Lee, worthy patron, will preside in the east.

Fern Herbst and Ethel Rogers will be co-hostesses of a card party at 8 o'clock, after the close of chapter meeting. The proceeds will be given to the Red Cross. The public is cordially invited.

Memo to Mrs. Housewife

It's again rumored since nylon has eased up a bit some may be released for hosiery.

* * *

Ladies, take care of your cottons! Washington hears there's a shortage. Hardest hit are bed linens, yard goods and print goods.

Ocean Beach U.S.O.

More and more service men are finding their way to the Ocean Beach U.S.O. The Sunday night buffet supper drew a large crowd and a group of dramatic students entertained with an amusing playlet. All expressed their appreciation of the efforts put forth.

Other entertainments and features for the week are: Bingo games Wednesday night, chili bean night Friday, and a birthday party for all hostesses and service men having birthdays in April, Saturday night.

Additional help is urgently needed to carry on all these activities and it is hoped more Ocean Beach women will respond. Cold cuts of meat for the buffet supper and cookies and doughnuts any time will be very much appreciated.

Here's a time saver for us, gals. Don't bother to iron Turkish towels. Shake and fluff them when damp; smooth and fold when dry. Easy, isn't it?

Palm Sunday Maundy Thursday At Bethany Lutheran

The Palm Sunday sermon topic of the Rev. Martin Lankow at Bethany Lutheran will be: "Is Yours a Life of Loyalty?" The service begins at 10:45. The Sunday evening Lenten vesper topic at 8: "Peace in this Confused World!" Graded Sunday school at 9:30 a.m.

Maundy Thursday vesper topic: "The Table of Peace!" at 8. The Good Friday vesper topic at 8, by Victor Herrmann: "Peace Through the Cross!"

The Easter services will be held at 8 and at 10:45 a.m.

Bethany school vacations during Holy week.

A friend of mine is using real mayonnaise to season most of her vegetables these days. Its rich, smooth flavor gives such a delightful taste and, of course, she saves ration points too.
